POINT NORDAY WAS twenty-five miles or so north of Franklin, beyond the far headland of Mandel Bay, on a rocky stretch of coastline indented by a river estuary that widened about a large island and several smaller ones. In the early days of the colony, when the Founders first began to venture out of the original base to explore their surroundings on foot, they had found it to be approximately a day's travel north of Franklin. Hence its

The bottom rail cleared the floor by three inches..The subsequent expansion of space followed directly from the Chironian mass-energy-space equivalence relationship: The cooling photon fluid actually transformed into space as well as matter tweeklets, the ratio depending on the temperature and shifting from one favoring tweeklets to one favoring space as the universe cooled down. Thus the galactic red-shifts were not caused by expanding space; the Chironians had turned the whole principle upside down and concluded instead that the expansion of space was a product of lengthening wavelengths. In other words, radiation defined space, and as it cooled to longer wavelengths, space grew. Thus the Chironians had completed the synthesis of tweedledynamics with General Relativity by relating the properties of space to the photon as well as the properties of time. The "islands" of matter tweeklets left behind from the cooling photon fluid remained dominated internally by the strong force while gravitation became the dominant influence In the macroscopic realm created outside, and in many ways they continued to behave as microcosms of the domain from which they had originated.. She frowned for a second, then reached for her glass. "The reaction that it might provoke worries me. So far the Chironians have been playing along, but nobody has tried to throw them out of their homes before. We've already seen examples of how they do not to hesitate to react violently."..Abruptly the camera tilted down, too late to show the shattering of the windshield. "They don't have any place now."..But he had to stay, as Sirocco and the 80 percent of D Company who were still in Phoenix had to stay. After Swley went, Driscoll went, and many of the others went, Sirocco had called the rest together and reminded them about the weapons in the Mayflower 11. "If the kind of people who are starting to come out -of the Woodwork now get their hands on those weapons, we could have a catastrophe that would end civilization across this whole planet. You've all seen what's happening back on Earth. Well, the same mentalities are here too, and they're panicking. We must keep enough of the Army together to stop anything like that if we have to." And so they had stayed..Merrick drew a long breath, and his expression became grave. "Mmm Walters. That brings me to the other thing I have to tell you," he said in a heavy voice. "Officer Walters is no longer with us. He and his family disappeared from Cordova Village two days ago and have not been 'heard of since. He failed to report for duty yesterday. We must assume that he has absconded. He shook his head sadly. "Disappointing, Fallows, most disappointing. I credited him with more character."..Sirocco gave a short laugh. "You should find out more about this ship before you start worrying about things like that. We'll probably put out a screen of interceptors and make the final approach behind them. Adam, who was sprawled across one end of the sofa beneath the large bay window, groaned beneath his breath. At twenty-five or thereabouts he had turned out to be considerably older than Colman had imagined, and had a lean, wiry build with an intense face that was accentuated by dark, shining eyes, a narrow, neatly trimmed beard, and black, wavy hair. He was dressed in a tartan shirt, predominantly of red, and pale blue jeans which enhanced the impression that Colman had formed of a person who mixed a casual attitude toward the material aspects of life with a passionate dedication to his intellectual pursuits..Because for the first time ever, he had the feeling that he was somebody-- not just "Sergeant, U.S. Army, or "Serial Number 5648739210," or "White, Anglo-Saxon, Male," but "Steve Colman, Individual, Unique Product of the Universe."..flamboyant fantasies rivaled Dorothy's dreams of Oz;

however, Micky could get no glimpse of yellow.the mothering. Only the normality mattered. The peace. Here, now, Leilani was overcome with a pleasant. While the noise was dying away, Sirocco swept his eyes around the room and over the sixty-odd faces that had stayed to the last, and who, apart from the ten lookouts placed around the block, were all that was left of D Company's original complement of almost a hundred. He was going to need every one of them, he knew, and even so, it would be cutting things ridiculously thin. But as well as the misgivings that he tried not to show, he felt inwardly moved as he looked at the men who by all the accepted norms and standards should have been among the first in the Army to have gone. But apart from the SD units, D Company's record was second to none. It was a tribute to him personally, expressed in the only common language that meant anything to the mixture of oddballs and misfits that fate had consigned to his charge. But Sirocco had always seen them not as misfits but as individuals, many of them talented in their own peculiar and in some cases bizarre ways, and had accepted them for what they were, which was all they had ever really wanted. But the term misfit was a relative one, he had come to realize. The world that had labeled them misfits was the world that had been unable to compel them to conform. Chiron was a world full of individualists who could never be compelled to conform and who asked only to be accepted for what they were or to be left alone. Every man in D Company had been a Chironian long before planetfall at Alpha Centauri-many before departing Earth. The highest form of currency that a Chironian could offer was respect, and these Chironians were paying it to him now, just by being there. Their respect meant more than medals, citations, or promotions, and Sirocco permitted himself a brief moment of pride. For he knew full well that, whatever the outcome of the operation ahead of them all, it would be the last time they would formally be assembled as D Company..his boot. "Remainder of detail, by the left.. . march!" Clump, clump, clump, clump....Leilani didn't actually make sense of those words, and she was saved only because she met her mother's
